Hey Steve, did you get back to Mark on this?

Also, I received your message about a scope-of-work for Mogul, and that's something I can provide. Let me know when you need it, and thanks for moving that along.

Finally, I turned to Gold King maps over to Teresa, our admin. assistant, and she will scan them. She's buried right now, so it won't happen in the near term, but she'll get it done, then we'll have digital versions and can return the originals to Steve Fearn.

All, in talking with Steve Laudeman here for bids on Capt'n Jack, we were not impressed with the dollar value of the ones we received. Is there a way you can share what you got for yours as they are fairly similar possibly. Anyways, I am including Steve Laudeman on this email string.

Thanks

Mark
